Dekel Agri-Vision Plc ('Dekel' or the 'Company')

Update on cashew project milling equipment

Dekel Agri-Vision Plc, the West African focused agriculture company, is pleased to advise that the first milling equipment shipment from Italy for the large scale raw cashew nut processing project at Tiebissou in Côte d'Ivoire has been cleared by customs and delivered to the project site from the port of Abidjan.

As announced on 8 July 2020, the milling equipment shipment, which comprises 12 containers of electrical, dryer, steam roasting and workshop hardware, is the first of four to be despatched from Italy by the manufacturer, Oltremare Srl. The remaining three shipments are expected to be shipped and delivered to Côte d'Ivoire in the coming weeks and months. Further updates will be provided to the market in due course.

The mill remains on course to be commissioned in Q2 2021, at which point Tiebissou will become Dekel's second producing project, alongside its established palm oil operation in Ayenouan, Côte d'Ivoire.

Notes:

Dekel Agri-Vision Plc is a multi-project, multi-commodity agriculture company focused on West Africa. It has a portfolio of projects in Côte d'Ivoire at various stages of development including a fully operational palm oil project in Ayenouan where fruit produced by local smallholders is processed at the Company's 60,000tpa crude palm oil mill and a cashew processing project in Tiebissou, which is due to commence production in Q2 2021.
